## 📁 Professional Experience

### Littra Technology, *Fullstack Developer* ✨

09/2020 – present | (Work From Home)

#### Web-optimization of MSMEs, (NextJs)

- Performance optimization to decrease webpage loading time and hence increase its performance rating.
- SEO tweaks to further improve webpage ranking.
- Link: [LiveSite](#) ✨

#### Cosmicframe, (ReactJs, RazorPay integration)

- Purchase custom-themed constellation frames on their special occasion using RazorPay or Stripe. Admin Panel to manage orders and frames/posters data.
- Link: [LiveSite](#) ✨

#### Restaurant order management system, (ReactJs, Redux, NodeJs, ExpressJs, MongoDB, and SocketIO)

- This project consists of both UserJourney (scan table QR, place and view order status) and Admin Panel to manage orders and menus.
- Worked Fullstack and implemented Socket connection to listen and emit order data using socket.io.

#### Littra Push, (React, Redux, NodeJs, ExpressJs, MongoDB)

- Push notification using service worker and Push API.
- Implemented dashboard and notification-click-detection.
- Link: [Live Site](#) ✨

### Webshot, *Web Developer Intern* ✨

03/2020 – 09/2020

- Worked on frontend for the *company's* ✨ website.
- Worked on frontend for the client's *JustWravel* ✨ website

## 📁 Personal Projects

### Covid Vaccine Tracker, (ReactJs)

- Alerts users using push notification when vaccine slot appears on your searched location and filter criteria.
- Link: [Live Site](#) ✨ [Source Code](#) ✨

### Truck map, (ReactJs)

- Live truck status of India (running, stopped, idle, and broken down trucks)
- Link: [LiveSite](#) ✨ [SourceCode](#) ✨ [API](#) ✨

### Admin Dashboard, (ReactJs, NodeJs, ExpressJs, MongoDB)

- Fullstack simple-admin-dashboard, register, login, and on login randomly generated dashboard graph data.
- Link: [LiveSite](#) ✨ [FrontendSourceCode](#) ✨ [BackendSourceCode](#) ✨
